ABSTRACT

The challenges involved when the vehicle comes to a halt in unexpected circumstances are many. In such an adverse situation, user may not exactly know the location to find the nearest available mechanic. This vehicle mnagement system is fully customized web application where company staff can view each customer order and give a solution to those vehicle problems. The locating system allows you to search Mechanics from different locations. Admin handles and can access the user details as well as the Mechanic details. Admin has the access to allow/block and view the mechanics. This online mechanic locator reduces your work and can easily find the mechanics from various areas. Reduces your time and cost.
